

## **Stan Deal**

**Executive Vice President, The Boeing Company**  
**President and CEO, Boeing Global Services**

“Expanding to North Texas was a natural fit for us. This location aligns with our mission to provide uncompromising service to our customers worldwide. Our Global Services headquarters is centrally located within Boeing’s U.S. footprint and has good proximity to major operations for commercial customers and defense partners. We could not be more thrilled with Plano and the Legacy West complex and all of the options for dining, shopping, and lodging within walking distance. It is perfect for our employees, as well as for our business partners and customers that visit us. In fact, we are already expanding our footprint with an additional 35,000 square feet to accommodate growth. This added capacity will allow for more than 200 employees at this location.”
